

WOHA Capital Fund

Whispering Oaks membership dues can't always cover large or unforeseen expenses. Thankfully we have the Capital Fund, which has proven itself to be an important safeguard for our community time and again.

The fund recently covered costly repairs to our 40 year old perimeter wall along Wurzbach. Sections of concrete block were buckling and posed a serious risk and liability. The WOHA Board was able to move swiftly to address the problem, without having to launch a dedicated fundraising campaign which could have taken months.

Nimble response to problems with our aging infrastructure is just one of the reasons the Capital Fund was created. It also underwrites prominent enhancements to the neighborhood, such as the continued expansion of landscape lighting at our entrances which helps improve motorist and pedestrian safety.

Please join the dozens of residents who make periodic contributions to the Capital Fund. Your donation can be made online via credit card or by mailing a check using this form. Every penny goes right back into our wonderful neighborhood!

Thanks for being a good neighbor!
