

Whispering Oaks Capital Fund saves crumbling wall.

The Capital Fund established by the Whispering Oaks Homeowners Association has proven itself to be an important safeguard for our community once again. Funds were used this spring to repair sections of our 30 year old perimeter wall along Wurzbach that were failing and posed a serious risk of collapse and liability.

Costly repairs to our aging infrastructure that need swift attention are just one of the reasons the Capital Fund was created. It also underwrites valuable community enhancements, such as lighting for an additional entrance this fall which will improve motorist and pedestrian safety.

While Whispering Oaks' very reasonable annual membership dues of less than \$11 a month generally cover the on-going basics of landscaping, utilities and insurances, the Capital Fund often addresses critical issues that help protect the property values and the quality of life which has made Whispering Oaks one of San Antonio's most admired and desired communities for over 50 years.

Please chip in what you can. And if you've contributed to the fund in the past, please take pride in knowing your generosity is making a difference and would be appreciated again during our springtime replenishment drive.

Thank you from your all-volunteer WOHA Board
